USER STORY ID	PRIORITY	AS A *<type of user>*	I WANT TO *<perform some task>*	SO THAT I CAN *<achieve some goal>*	FINAL STORY
1	High	User	Register an account	Start using the application	☑
2	High	User	Log in to my account	Use the application, and access my saved searches and preferences	☑
3	Medium	User	Save, retrieve, and delete my past searches	Revisit them easily when needed	☑
4	High	User	My personal data to be securely handled	Be sure that my privacy is protected and feel safe using the application	☑
5	High	User	Search for media using single terms	Browse relevant content	☑
6	Medium	User	Search for media using multiple criteria	Browse for content more specifically	☑
7	Medium	User	Filter and sort the search results	Find what I need efficiently	☑
8	Medium	User	Display and play the media files directly in the application	Evaluate them before using/downloading	☑
9	High	Developer	Integrate the Openverse API	Enable users to access a large collection of open-license media	☑
10	High	Developer	Implement a modular and scalable architecture using design patterns	Later maintain and extend the application easily	☑
11	Medium	Developer	Use Docker for containerisation	Deploy the application easily	☑
12	Medium	Developer	Implement an automated build process	Have efficient and error-free deployments	☑
13	High	Developer	Implement automated testing	Ensure high-quality and bug-free software	☑
14	High	Developer	Ensure efficient API integration with Openverse and authentication services (e.g., OAuth 2.0)	Enable users to have seamless access to external resources	☑
15	Medium	Developer	Provide clear and detailed documentation	Enable future developers to easily understand and extend the system	☑
16	Low	User	Have a simple guide on how to use the search and filtering features	Quickly learn to use the application	☑
